Home Internet Appliance IA-2 Modifications Information On This Card Supersedes Instructions in Your Manual

Keyboard Changes

Two keys on your Home Internet Appliance IA-2 are different from the keys on the keyboard illustration in the “Features” section of your *iPAQ Home Internet Appliance IA2—Getting Started* guide.

The **Alt** key is located next to the **Ctrl** key and currently has no function. The key is on the board to allow for future upgrades to the system.

The documented position of the **Alt** key (to the left of the @ key and the spacebar on the keyboard) is replaced on your keyboard by the tilde key as shown in this illustration:

Microphone

The small opening at the top of your unit (below the Display Control keys) is a microphone. The microphone currently is not active, but will be needed in the future as the Home Internet Appliance capabilities are expanded.

System Reset

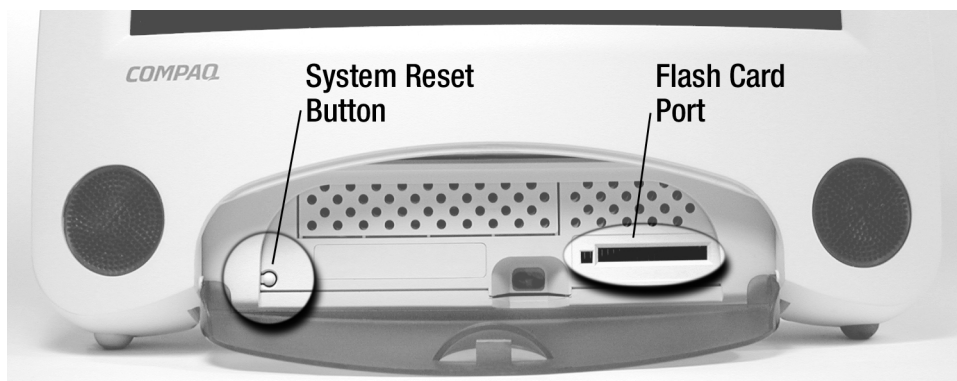

Chapter 9, “Getting Help,” of your *iPAQ Home Internet Appliance IA2—Getting Started* guide refers to resetting your appliance with the following instruction:

Press and hold the **Power On/Off** button for 10 seconds to reset the unit.

This instruction is not appropriate for the iPAQ Home Internet Appliance, model IA-2. Should the need occur, reset the appliance by following the instructions below:

To Reset Your Appliance:

1. The power must be on.
2. Open the translucent plastic door on the lower front of your appliance.
3. Press the **System Reset** button on the left, as indicated in the picture below.

Omitted Feature

The **future expansion slot** shown in step two of the Quick Setup poster and the **flash card port** referenced in Chapter 2, page 2 of your *Getting Started* guide are the same feature. This feature is not included on your iPAQ Home Internet Appliance IA-2.
